

# GHDA APPEAL

Help respond to the ongoing

## HIV/AIDS disaster

**HIV/AIDS is an ongoing disaster and the statistics are staggering:**

- 39.5 million people live with HIV/AIDS
- There were 4.3 million new infections in 2006
- Infections have risen by %50 since 2004
- In 2006 2.9 million people died of AIDS-related illness

Yet, **HIV/AIDS can be prevented** and **it can be treated**.

Help us respond to this ongoing disaster.

As we mark World Aids Day on December 1, please consider making a financial gift designated to "GHDA HIV/AIDS Response." Money receive will go to support HIV/AIDS prevention carried out by our partner Canada Lutheran World Relief.
